Increasing Capabilities

Waukegan, IL. --- September 17, 2007 --- Continually expanding its capabilities, A. L. Hansen has added a state-of-the-art P/A Industries reel to its metal stamping department. The model: SRH 6524 Medium Duty Stock Reel sets the foundation for A. L. Hansen to handle the largest of stamping jobs. Partnered with our COE CPRFS-418 servo feed and AIDA PMX-300 ton press Hansen has set the stage for a winning combination of ***Precision and Strength:***

Reel:	Max Coil Width: Max Coil Weight: Max Coil O.D.:	25.5 in. 6,500 lbs 55.1 in.
Feed/Straightner:	Material thickness: Accuracy: Cycles: Speed:	Up to 1/4 in. +/- 0.003 in 24" @ 38spm 317 fpm.
Press:	Tonnage: Bolster L-R: Bolster F-B:	300 Ton 96.5 in. 47.25 in.

Working with materials of these sizes, safety is always a concern and at A. L. Hansen, safety is always a top priority. That's why we have chosen the SRH for this application. The SRH is equipped with a Pneumatic pressure arm that prevents material clock spring during band cutting and setup. This feature not only ensures the safety of our employees but assists in a faster more efficient setup.
